Do you want to make a difference? Then join our team at RetInSight!
We are a spin-off of the Medical University of Vienna with the aim to bring the breakthroughs of science to the society and each individual, anywhere and anytime. Our expertise builds on more than 15 years of tele-ophthalmology and AI-based retinal image analysis. As pioneers in the field, we are developing cloud-based transformational AI solutions to improve patient outcomes, empower physicians to increase clinical efficiency and reduce healthcare costs addressing the leading eye diseases of our times. With your contribution we will protect millions of patients from irreversible vision loss and blindness.
For the expansion of our development team, we are looking for a

# Frontend Developer (Angular)

m/f/d, Vienna, Full-time, ASAP

## Your Role

Within a Scrum team, you apply Angular and Javascript technologies to develop, unit-test and maintain the frontends of our web applications, to bring AI-assisted image analysis to different customer segments of healthcare. You will work together with frontend and backend/cloud-service developers and testers as well as UX/UI designers and usability engineers.

## Your Profile

- Professional work experience of at least 3 years as a web front-end developer with experience in Angular
- Working knowledge of Typescript, Javascript, CSS, Material Design, HTML5 and JSON
- Ideally experience developing application integration with REST APIs and web/cloud services
- Familiar with software development life cycle, from requirement specification to implementation and verification (ideally in Jira)
- Experience with utilizing CD/CI tools plus Git and branching workflows
- Ability to contribute to the development of innovative principles and ideas
- Self-motivation, structured thinking and teamworking
- Good English skills

## Our Offer

- Room for own ideas in the design and development of innovative products with global customers
- Friendly and supportive team culture
- Well-equipped workplace in a central location in Vienna.
- Infrastructure and expertise in an agile and interdisciplinary team for high software quality standard to develop certified software as medical device
- EUR 50,000 per year with the willingness to overpay according to your qualification.

Interested? We are looking forward to your application (including CV & cover letter) by e-mail to career@retinsight.com!
