Do you want to make a difference? Then join our team at RetInSight!

We are a spin-off of the Medical University of Vienna with the aim to bring the breakthroughs of science to the society and each individual, anywhere and anytime. Our expertise builds on more than 15 years of tele-ophthalmology and AI-based retinal image analysis. As pioneers in the field, we are developing cloud-based transformational AI solutions to improve patient outcomes, empower physicians to increase clinical efficiency and reduce healthcare costs addressing the leading eye diseases of our times. With your contribution we will protect millions of patients from irreversible vision loss and blindness.

For the expansion of our development team, we are looking for a

DevOps Engineer (AWS)

m/f/d, Vienna, Full-time, ASAP

Your Role

Within a Scrum team, you develop, build, support and maintain medical software solutions as service in AWS, to provide different segments of the healthcare system with AI-assisted medical image analysis. You work together with the development and QA teams on code review, CD/CI, config management, monitoring of the cloud-based data processing, optimization of the cloud services and providing customer support when needed.

Your Profile

- At least 2 years of experience in a DevOps role in an AWS environment
- Experience with relational databases (MySQL, PostgreSQL)
- Experience with deploying AWS services such as AWS API Gateway, EC2, S3, Cognito, Lambda, Batch, SNS and ECR
- Solid skills in Python programming
- Experience with agile software development lifecycle, from requirement specification to design, implementation, verification and validation
- Experience with utilizing and administration of CD/CI tools, Docker as well as Git and branching workflows
- Self-motivation, structured thinking and teamworking
- Fluent English skills

Our Offer

- Room for own ideas in the design and development of innovative products with global customers
- Friendly and supportive team culture
- Well-equipped workplace in a central location in Vienna.
- Infrastructure and expertise in an agile and interdisciplinary team for high software quality standard to develop certified software as medical device
- EUR 50,000 per year with the willingness to overpay according to your qualification.

Interested? We are looking forward to your application (including CV & cover letter) by e-mail to career@retinsight.com!
